RIFFLE

In 1928 a new high school campus was established "on the hill" in Placerville, and the red brick building, still the hub of our present school, was opened to its first students. Since that time, buildings have spread over the growing campus to keep pace with the school population. This growth we commemorate in our 1962 **Riffle** with drawings of our campus today and pictures of school life from 1928 to 1962.
